

## Asia-Pacific Conference on Chemical Ecology 2007 Tsukuba: Symposium Program

<b>Symposium A Aquatic ecosystems &lt;Mari Yotsu-Yamashita; Peiyuan Qian&gt; Sep 11 (Tue) Afternoon</b>					
<b>A-1</b>	14:20-14:45	Hiroshi Nagai	Bioactive polypeptides of the marine venomous animals	Tokyo Univ. of Marine Sci. & Technol.	Japan
<b>A-2</b>	14:45-15:10	Peiyuan Qian	Differential gene and protein expression during larval settlement and metamorphosis in response to chemical cues	Hong Kong Univ. of Science & Technology	China
<b>A-3</b>	15:30-15:55	Mari Yotsu-Yamashita	Tetrodotoxin resistant systems of the toxin possessing animals	Tohoku Univ.	Japan
<b>A-4</b>	15:55-16:20	Rocky de Nys	Surface mediated interactions in the marine environment - The role of natural products	James Cook Univ.	Australia
<b>A-5</b>	16:20-16:45	Yoichi Nakao	Bioactive small molecules from marine organisms	Waseda Univ.	Japan
