

6th Asia Pacific Conference on Chemical Ecology
October 11-15, 2011, Beijing, China
APACE Website: <http://apace-news.org>

Chemical Ecology Future: Green Chemoecology in 21st Century

First Announcement

Please join us in Beijing for the 6th Asia Pacific Conference on Chemical Ecology that will be held in Beijing from October 11-15, 2011. The conference will include plenary and keynote talks, posters and 10 min oral presentations, Enjoy the history and culture of Beijing and try to visit more places.

CALL FOR PAPERS: Please consider sharing your chemical ecology research via oral and poster presentations to compliment Plenary and invited speakers information in second announcement (March)

REGISTRATION

Information on online registration and fees will be available in second announcement (March)

Meeting and Hotel Venue

Beijing Friendship Hotel

Online hotel reservations will be available in second announcement
+86 10 59790988

Tentative Symposia and Workshop being organized:

Aquatic Chemical Ecology;
Biosensors, Chemosensors and Plumes;
Chemical Ecology of Forest Pests;
Chemical Ecology of Invading Species;
Chemical Ecology of Vertebrate Organisms;
Microbio-Chemoecology of Insects and their Environments;
Insect-Plant Interactions;
Perspectives of Chemical Ecology;
Plant Allelochemical Diversity;
Receptors and Olfaction;
Pheromone Evolution

There will be one-day workshop “Emerging Technologies and their Practical Applications in Pest Management” with most updated development from world leading tech-companies and well-known research scientists to share their experience.
